AI-POWERED SOFTWARE COMPANY · DHAKA · USA · UK

# AI-powered custom software for corporates & growing businesses

ERP, POS, HRM, accounting & VAT, hospital, school and garments software, mobile apps, SaaS and websites — with an AI copilot and MCP server built into every system.

aws Azure Google Cloud Microsoft 365 Google Workspace

THE CHALLENGE

# Growth stalls when your systems can’t keep up.

01

## Scattered data

Sales, stock, HR and accounts live in disconnected spreadsheets and apps.

02

## Manual, slow work

Teams lose hours to repeated entry, reconciliation and reporting.

03

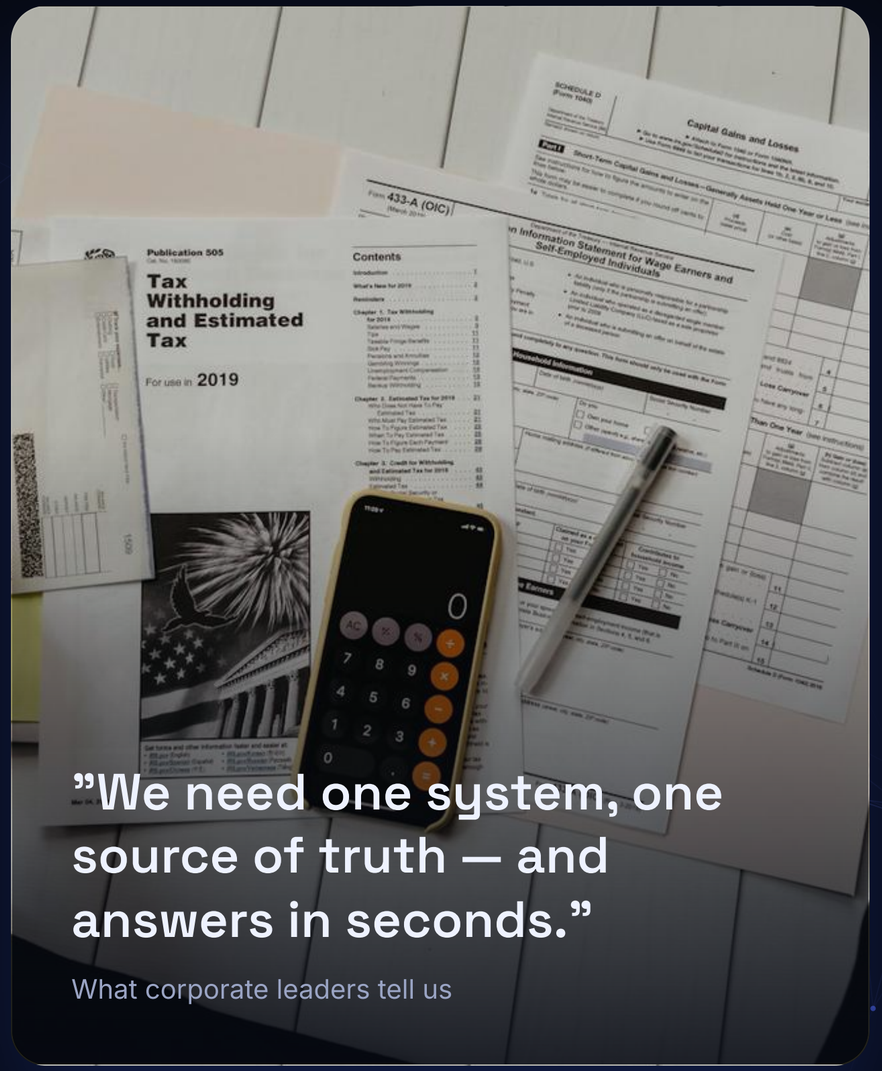

## Compliance pressure

VAT (Mushak), GST and audit requirements keep getting stricter.

04

## The AI gap

Off-the-shelf software isn't AI-ready — and competitors are moving fast.

WHO WE ARE

# Your AI-ready technology partner — from Bangladesh to the world.

DesignSilc designs, builds and supports business software for corporates, enterprises and government organisations — plus the branding and digital marketing that brings in qualified leads.

**HQ**
